# Wednesday Jan 8th, 2020 – 11am to 1pm

Learn the basics of two pieces of software that will process your photos including straightening the horizon, cropping, saturating colours, decreasing or increasing the dark and light areas, sharpening focus and a few other "tricks" that will vastly improve the quality of your photos. The programs are Snapseed for cell phones (a free app) and Lightroom for computers.

REGISTER   INSTRUCTOR

Hans Tammemagi

As a writer and photographer of national repute, Hans is constantly taking and working with digital photos, which he uses to illustrate his articles, and which he also markets as prints, cards and calendars. He has written ten non-fiction books (one national best seller) and his articles appear in newspapers and magazines across North America. Hans is an experienced lecturer and enjoys working with people. He was an adjunct professor at Brock University and University of Victoria, where he lectured. He has presented seminars on how to process photos using various software programs to the Pender Island Photo Club.

A CLASS IN APPLE APPS

WITH MARC LESPERANCE

Friday, Jan 10th, 2020 – 1pm to 3pm

In this workshop you will learn what apps are, where to find them, how to download, install, store, and use apps in an iPad environment. iPads will not be furnished so please bring one from home. This workshop does not include Non-Apple applications.

REGISTER   INSTRUCTOR

Marc Lesperance

Marc has a background in computers dating back to the mid to late 1980's. He is experienced in building, coding, troubleshooting, networking, and security. In addition to such, Marc has facilitated beginner and advanced computer skills workshops for several years as a contract employee with Service Canada.

Basics of Google Drive
with Robb Zuk

# Wednesday, Jan 15th, 2020 – 11am to 1pm

Letters, reports, recipes, poems, and books: all of these word processing projects are easy in Google Docs, a free alternative to Microsoft Word, OpenOffice, Pages, etc. Access your document from any computer, tablet, iPad, or phone. Let anyone else see your work or edit it (optional). Teams can work on the same document at the same time. Bring your phone, tablet, iPad or laptop (extras on hand).

REGISTER   INSTRUCTOR

Robb Zuk

Life-long computer user, from cards to cloud. 10-year Google systems manager. Professional data systems and business analysis consultant. Guide to many, from kiddos to grandparents. "There are no stupid questions."
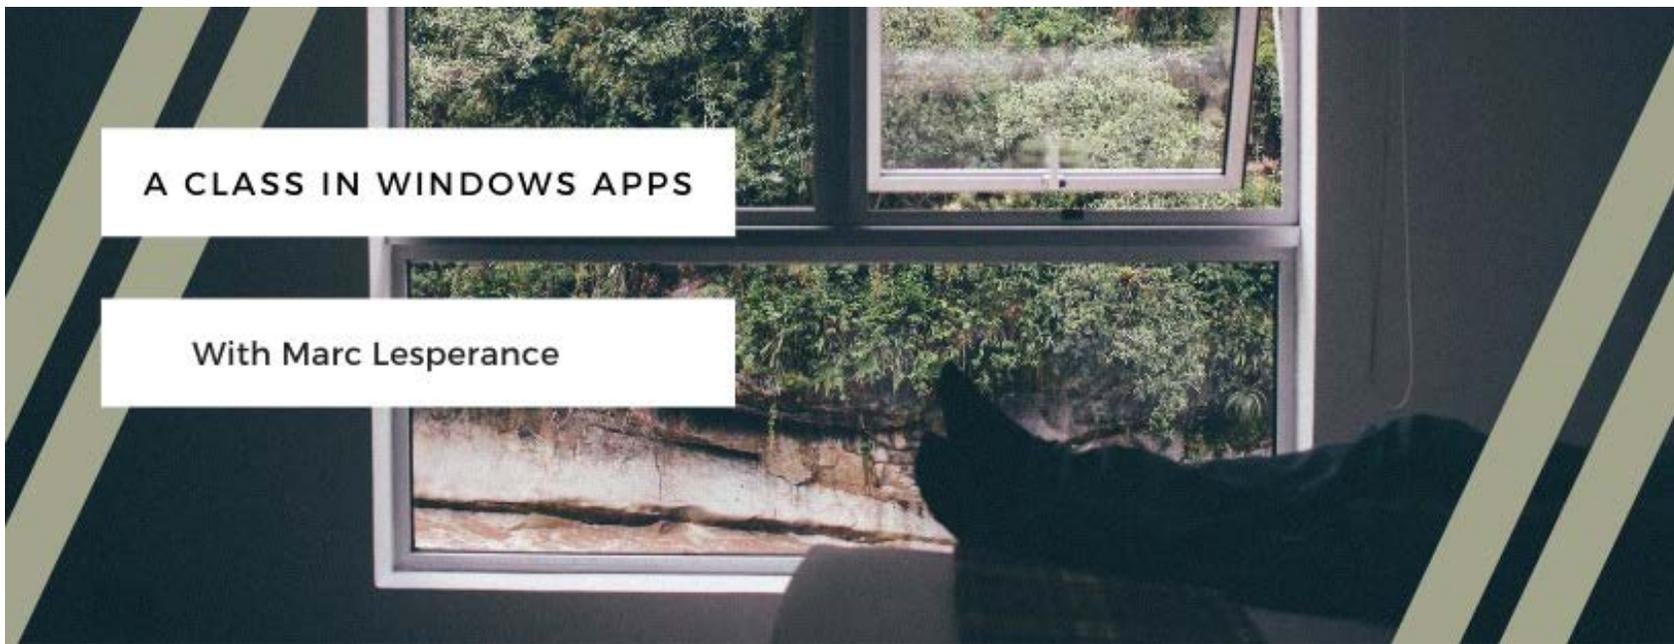

Wednesday, Jan 22nd, 2020 – 11am to 1pm

Recording video has never been so easy or effortless. Everyone has a powerful video camera in their pocket: a smartphone. And with a little practice and access to a few key tips, you can start recording great footage, vlogging, or even record an indie film or documentary using just your smartphone.
